Lively Tilts in Getting Jury to Sit in Haywood Case

NAME OF ROOSEVELT IS INVOLVED

Talesman Says He Thinks Orchard Lies About The Men

[By Telegram to The Age]

Boise, Idaho, May 16.—The following jurors are in the box, passed by the state and defense to try William D. Haywood. Each is subject to peremptory challenge by state or defense. Each side has 10 peremptory challenges and the state has used one: A. J. Ewing, carpenter; George F. May, farmer; Samuel D. Gillman, farmer; Valter Shaw, farmer; Allen Pride, farmer; William McGuffin, coal and feed dealer; Oric Cole, farmer, G. H. McIntyre, farmer; W. H. Bisby, farmer; A. P. Burnes, farmer; W. M. Hidge, farmer; Samuel F. Russell, farmer.

The uncovering of a vein of prejudice against Harry Orchard and his testimony during the examination of talesmen led up to a sharp wrangle between counsel and involved the name of President Roosevelt in a scurrilous discussion. The incident began with Samuel Wingate, eleventh talesman, in the hands of the defense for examination-in-chief. Questioning had proceeded a short distance when it developed that Mr. Wingate was biased against Orchard and unwilling to accept the testimony which it is expected he will give against the prisoner. The defense naturally tried at once to show that Wingate's state of mind on the subject was not such as would warrant his removal from the box, but when the talesman repassed to the ends of the state, Senator Borah quickly drew from him the flat-footed statement that he could not, under any circumstances, give credence to Orchard's testimony. Wingate was on this excuse, the defense excepted to the court's ruling and from hence forward, the state was particular to test all talesmen on the point.

Tilt Between Counsel

The question recurred when Senator Borah put the question to Talesman William McGuffin, who succeeded talesman Henry to seat No. 6 after a latter had been evicted for implied as on testimony of R. C. Lovelace the first witness called—who swore at Henry had told him that Haywood, Moyer and Pettibone would not have brought here if "they had it been mixed up in the case," saidarence S. Darrow of the defense objected to the question and Senator Borah sharply replied: "After the immense latitude that the defense has taken in regard to McPartland, Taft, d Roosevelt, I did not think they would stick on any technicality at this e day."

"We did not ask as to the effect of McPartland's testimony," said Darrow d Richardson together. "If Roosevelt is to be brought here to testify, might have something more to v," went on Mr. Richardson. "Mr. osevelt can take care of him- f wherever he is," retorted Borah. ell, I don't know about that," said row.

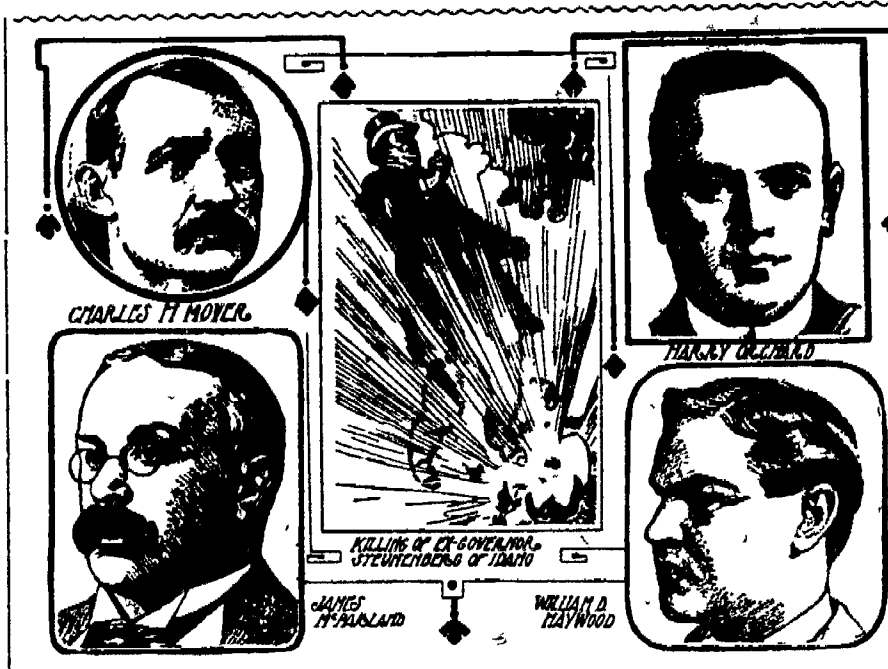

Judge Wood directed counsel to proceed with the case, but Mr. Darrow, o was standing, took formal excep- ons to the remarks of Mr. Borah. will be glad to eliminate Roosevelt ou will," replied Borah. "He was ight into the case by the defense." "He came in himself," said Mr. hardon. "He is 2,000 miles away f he writes letters." "He was ight in by his own butting in," led Darrow.

The judge overruled the objection to the question, the talesman saying it he did not have any bias or on in the matter, the defense ing an exception and the incident ed.

District Conventions Planned That Will Cover Whole County

Active preparations have been started for a grand county Sunday school convention in June and Rev. Kohler of this city and Rev. Shook of West Bedford, the county field workers, today sent out the following calls for district conventions:

Dear Sunday School Workers—As field workers and co-workers, we appeal to you in the interests of your work. The past winter season has been unfavorable to Sunday school in the rural districts. Notwithstanding this, the Sunday schools of Coshocton county have done good work. But as the spring opens we hope for a large increase in interest and scholars. We have arranged for a tour of the county and thus have grouped the county into five divisions for convention work. In these conventions we hope to do several things which appeal to us as very necessary.

1. To reach every school in the county by having it represented in its convention
2. To secure reports from each school and township organizations
3. To prepare us for the County convention, June 11, 12
4. To make each Sunday school in the county a more effective agency in the community for the teaching of the word and the saving souls.

May we not have your presence and co-operation in this work. Come to the conventions and show your interest by taking part.

Yours in the Sunday school work

PLEADS GUILTY

Abe Ruef, Former Political Boss, Astonishes the Prosecution.

MAKES ADDRESS TO COURT

San Francisco, May 16.—Ruef will go before the grand jury. The prosecution believes Mayor Schmitz will be the next to confess and new indictments will be found.

San Francisco, May 16. — Abraham Ruef, better known as "Abe" Ruef, once the recognized dictator of municipal affairs, in San Francisco, pleaded guilty to the charge of extortion in Judge Dunne's department of the superior court. Sentence will be pronounced upon him two weeks hence.

After a private conference with his four attorneys in Judge Dunne's private chambers, and after they had withdrawn from his case because of the resolution he had taken to change his plea and avoid trial, Ruef, to the utter astonishment of the prosecution, arose in court and announced in a dramatic address that after long and urgent consideration he had determined to withdraw his plea of not guilty and enter a plea of guilty. He asked that the jury be dismissed and the trial abandoned.

The specific charge to which Abraham Ruef pleaded guilty was that of extortion of \$1,175 from the proprietors of the Delmonico French restaurant to secure a renewal of their liquor license which had been revoked because they served drinks in private rooms. The case was based on only one of many other indictments against Ruef, each charging a similar offense. Ruef claimed that the money was given him voluntarily as an attorney fee.

In pleading guilty Abe Ruef made an impressive address to the judge, stating that he had commenced his career in politics with high ideals, for himself and for the city, but that conditions had broken him down and he desired only an opportunity to make reparation and restore his character before the world. As he concluded his address he fell back into his chair almost fainting and the tears coursed down his cheeks. His health, he said, could not endure the strain of the trial which he was facing and the torture was beyond the endurance of those who were nearest and dearest to him.

Ruef arose and went out of the courtroom with Detective Burns. The two walked to the corner of Sacramento and Webster streets, where they entered an automobile and drove to the house on Fillmore street, which is Ruef's prison.

Ruef issued a statement later in which he said: "I changed my plea to guilty, yes; but I pledge you my solemn word that I am as innocent as you are. I have been guilty of conniving at the corruption of municipal officials by corporations, but I am not guilty of extortion. I have made no confession. I know much. Some things I shall tell, some things I shall not tell. Whenever an innocent man has been forced into corruption against his will, that man I shall protect. Whenever a man, be he high or low, has entered into corruption with his eyes open, that man I shall expose. I will not say at the present moment that Mayor Schmitz is guilty of the

MURDERER OF CRISPEN GETS BRIEF ADVANTAGE

Huntington, W. Va., May 16.—(Special)—The trial of John Bayles, for the murder of William Crispin, of Coshocton, which was to have begun today in the local courts, has been postponed till May 22.

There is little doubt of Bayles' conviction.

Late this afternoon or tomorrow morning the precept for witnesses in the Kelly Miller case will be filed in common pleas court and a dozen or more summonses will be served in the Fresno vicinity by Sheriff Browning and Deputy Wiggins tomorrow and Saturday.

Judge Nicholas will return home from Millersburg tomorrow and the motion filed by Millers' attorneys to compel the state to turn over for

their inspection whatever bottles, etc., which the state expects to offer in evidence, will probably be decided Saturday. It will be remembered that the same turn of affairs occurred in the Harry Thaw case when the defense demanded the letters of Abe Hummel which the state held. The court ordered the letters to be turned over to the defense for inspection.

The Kelly Miller case will go to trial next Monday without a hitch of any kind, the jury question having been agreed upon. While the names in the jury box are exhausted, the attorneys for the defense have consented to an arrangement whereby Judge Nicholas is to choose 25 or 30 names and from this list a jury will be drawn. As this is satisfactory to the state, the case is almost sure to proceed without any further difficulty.

Miller's attorneys would not consent to have the jurors picked up at random but are satisfied to allow the judge select the list.

Miller's attorneys, Howard E. Hahn, of this city and Mr. Kuntz, of Zanesville, are working hard in preparation for the case. Mr. Kuntz is paying frequent visits to Coshocton and both of them have made a number of trips to Fresno and to the county jail.

Charles Veigle one of the men at once notified the police of their loss. Later the men returned to work, and found the boys still hovering around. They were promptly captured and taken to the police station and charges placed against them.

Chief Maple telephoned the superintendent of the Lancaster Home home Wednesday afternoon and he will arrive Friday morning to escort the young culprits back to confinement.

Harvey and Harrison Potter, both of whom have served time in the Lancaster Reform school, but for the past several weeks have been home on parole, are doomed to return to that institution Friday.

Wednesday, the two lads discovered five baskets of dinner belonging to that number of men who were employed by the county infirmary and were plowing the field between the two rivers just north of the bridges.

The boys evidently were hungry, and carried the dinner away after eating as much as they could, they

threw the remainder away, and made their escape.

MORE NEW NAMES FOR GREAT TOUR TO OLD JAMESTOWN

Wednesday's announcement of the partial list of candidates for The Age's great Jamestown-Washington-New York trip resulted in the manifestation of more enthusiasm than has been in evidence since the opening announcement of the unusual free offer.

Several other candidates are about to enter and help to make a lively contest.

If you have considered entering, come in now at the start and you will not be handicapped at the beginning. An early start is most essential for at this time several votes have been cast which are bound to make a showing for the candidates in the various districts.

By Friday the city will have a much stronger list of representatives and as each one already entered promises much influence among her many acquaintances in the county. Coshocton city will certainly furnish its share of the battle. The fact that the rural districts were more strongly represented in the announcement of Wednesday can give little insight as to which district will witness the greatest struggle.

If you are not acquainted with any of the candidates named so far it will make no difference for there will be one to represent you community throughout the entire contest and it is a good plan to clip the coupons from each paper and save them because it will be no trouble to you and sooner or later one of the contestants will ask your aid.

And you couldn't give it to a more worthy cause for the reason that The Age's trip is one of unmeasurable educational value.

The young woman who is going from your district or who is asking for your subscription, is not asking a particular favor of you. On the other hand she is doing you a favor

If you subscribe for the first, or renew your old subscription you are getting value received and much over, for your money in receiving the best publication in this section of the state. For this reason and because you will be helping in sending a representative of your district on a trip that she will remember forever because of its many beauties, it is well to consider the matter seriously now just as the contest is getting under way.

IT IS NOT TOO LATE TO ENTER NOW. Instead, it is just the time. People are saving their coupons, are taking interest in the contest and are ready to give you the 1000 votes accompanying the yearly subscription. YOU CAN SECURE VOTES FROM ANY PART OF THE COUNTRY and because you represent a certain district you are not required to confine your efforts to that district alone. Maybe you are better acquainted in some other district than you are in your own. If so, get into that neighborhood of your friends and tell them you are trying to take in the offer of The Age and they will help you. It is a big educational trip with every expense paid by The Age. This great trip is to be ABSOLUTELY FREE TO THE MOST POPULAR YOUNG WOMEN OF COSHOCTON COUNTY. The Age standing every expense of the trip, which will be first class throughout in accommodations.

Troubles of the stomach, heart or kidneys are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—means weakness, always. And the heart and kidneys as well have their controlling or inside nerves. Weak on these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the inside "nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. PROFITS OF THE WATER WORKS
Recent informal conversation of the city council suggestive of a
reduction of the water rates in this city was interesting but hardly comes
to the head of a public demand. Coshocton, has the distinction of hav-
ing the few well managed and paying municipal water works de-
scribed in the country. No one, so far as generally known, is mak-
ing a lick on the present rates. In fact we doubt whether an
improvement well could be kept in annual good repair, with interest
payment of its digging or digging, for the price asked for the city
more than that Coshocton is getting the best water in the state
always pure, always clear and cold and always ready to run
manual labor. The profit of the department is being used for ex-
tension of the service and for paying off the water works bonds just as
in fact in this connection Mayor Smith says he has under-
stand that there are in favor of paying sewer bonds with the water
works profit. Time may come when the water works bonds
are paid, then it will be ripe to reduce the rate. Hardly before that

now a matter of doubt whether the Pennsylvania capitol build-
ing in Harrisburg is more of a state headquarters or a 'monument to
the American people' in the latter aspect it is one of the successes of the country.
It is pretty certain that art and explorations will never pay cash divid-
end the capital that has been invested in it.

ROBERT LUCAS—1833-1836.
Robert Lucas, governor of Ohio from 1833 to 1836, was a man of strong
personalities. His ability as a soldier was shown in the war of 1812, when
he raised a battalion of volunteers. He became a brigadier general and
served at Fort Meigs and Lower Sandusky. The "Toledo war" occurred dur-
ing his administration as governor, and he maintained the Ohio side success-
fully. His father was a captain in the Revolutionary war and a descendant
of William Penn. Robert Lucas removed to Ohio in 1802, settling where
Portsmouth now stands. He afterward removed to Piketon and was engaged
in a general store. He was several times elected to the different branches of
the general assembly, serving at one time as speaker of the house of rep-
resentatives. In 1832 he presided over the national Democratic convention that

Van Buren as territorial governor of Iowa. He died in Iowa City, Ia., Feb. 7,
1836.

CITY'S THREAT
Moves Streetcar People to Grant the
Demands of Strikers.
San Francisco, May 16.—The Geary
street road has granted the demand
of the striking carmen and will re-
sume operations on a basis of \$3 for
an eight hour day. The board of su-
pervisors notified the officials of this
line that unless the company started
its cars, the city would take over the
road and operate it. The line runs
from the junction of Geary, Kearney
and Market streets to Golden Gate
park.

Men Who Abuse Wall Street.
By HENRY CLEWS, New York Banker.
MANY people abuse Wall street, but as a general rule the
majority of them are UNSUCCESSFUL SPECULA-
TORS who have made a mistake in the selection of their
profession. There is always an open door in the stock
market. ANY ONE CAN COME IN.
IT IS NOT AN EXCLUSIVE CIRCLE, AND THERE ARE ALWAYS
THE PALMS FOR THE SUCCESSFUL MAN.
Mr. Carnegie should not despise Wall street, for Wall street
money built our railroads, which were instrumental in developing far
and wide the resources of the nation, without which it would have
been IMPOSSIBLE for Mr. Carnegie to have built up his great iron
and steel plant, which afterward was unloaded through Wall street
machinery, making him the second richest man in the universe.
Mr. Carnegie has told us that he has never speculated, so of course
this does not apply to him, but among a certain section of people it
has been considered the correct thing to deery the stock market, and
the unsuccessful speculator, with THE MAN WHO KNOWS
NOTHING ABOUT IT, makes the more foolish.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchitis and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of dyspepsia (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

The Woman's Club

Met at the Library

The Woman's club continued its

study of Scandinavia at the regular

meeting held at the library Wednes-

day afternoon. Mrs. E. C. Carr read

an excellent paper prepared by Mrs.

E. O. Selby on "Art and Architect-

ure of Scandinavia" in which she

mentioned the special attention

which is paid to the planning of the

public buildings—as well as the pri-

vate ones—with the result that, ar-

chitecturally speaking Stockholm,

which is the metropolis, can not be

surpassed by either Paris, Berlin or

any of the other beautiful Continen-

tal cities. Next Miss McCurdy read

Mrs. R. C. Snyder's paper on "Old

Bill, Johnny Lind, Nilsson and

Greig" and after that came the

"Eulogy of Ibsen" which was most

convincingly given by Mrs. Ruc and

was followed by an "Invective" of

the same talented man given by Mrs.

Seth Snyder. The form of the two

papers was rather different from any

thing which the club has had in the

past and the ladies enjoyed both of

them thoroughly. The last num-

ber of the afternoon was the excel-

lent paper by Mrs. John Hamlor on

"Subways" and was a fine description

of the subways of London, Paris, Ber-

lin and New York. Miss McCoy of

Carrollton was a guest at the meeting

and the club adjourned to meet next

with Mrs. R. C. Snyder.

VOICE

It is no happiness to be complete. How sweet the picture of mother and babe! Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of childbirth can be entirely avoided by the use of **MOTHER'S FRIEND**, a scientific treatment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

MOTHER'S FRIEND

TO COMPLETE BUILDINGS

Additional Appropriation Required for Tuberculosis Hospital.

TO BE OPENED IN FALL, 1908

Columbus, O., May 16.—It was stated that not before the fall of 1908 will the state tuberculosis hospital at Mt. Vernon, O., be ready to receive patients. An additional appropriation of about \$100,000 will be required from the legislature next winter to complete the buildings and plant. The total cost, exclusive of the 257-acre site, will be nearly \$300,000.

When in operation the annual expense will be about \$450 per year for each of the 200 inmates, or nearly \$100,000. This estimate is based on experience in other similar institutions.

A contract for the complete construction of the administration group was let to the R. H. Evans company of Zanesville, at its bid of \$156,691.55. The architect's estimate was \$172,000. The contract requires the buildings to be enclosed by Jan. 1, and completed by July 1, 1908. Work will be begun immediately.

Found in Whisky Vat.
Detroit, Mich., May 16.—The body of William Kennedy, an employee of a distillery at Walkerville, Ontario, was discovered in a vat of whisky mash. In some unknown manner, Kennedy fell into the fermenting vat, and his body was discovered there last night. He had entered the employ of the distillery only last Friday.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a flower which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. Few young women appreciate the shock of the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. More than a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. It is made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and make its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve, specially adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Bad Symptoms. The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and successful record of cures in such a wide range of ailments as Dr. Pierce's Favorite Prescription. It is such a strong and healthy tonic for each of the organs of the system, more than any other medicine, that it is the only one that can be taken with safety.

harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath as complete and correct.

In any condition of the female system Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of the "Favorite Prescription." It will not perform miracles; it will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Doctor's All Agree. The most eminent writers on *Materia Medica*, whose works are consulted as authorities by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, larynx and bronchial affections attended by lingering, or hang-on-coughs that has any such professional endorsement—worth more than any amount of lay or non-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrh of throat, larynx and bronchial affections. It is the most efficacious remedy in cases accompanied with wasting of flesh, night sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected or badly treated are apt to lead to consumption. The "Discovery" has proven wonderfully successful in effecting cures.

The formula is printed on every wrapper of "Golden Medical Discovery," attested as to correctness under oath, and you can't afford to accept any substitute of unknown composition for this non-secret remedy no matter what selfish interests may prompt the dealer to urge such upon you. In fact it is an insult to your intelligence for him to do so. You know what you want and it is his place to supply that want.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They cleanse, invigorate and regulate stomach, liver and bowels, curing biliousness and constipation. Little sugar-coated granules—easy to take as candy.

Dr. Pierce may be consulted by letter free of charge. Address: Dr. J. C. Pierce, Medical Department, Little Rock, Arkansas.

Catarrh Can Be Cured

Kill the Germs by Breathing Hy-o-mei Gives Quick Relief

Many people who have suffered with catarrh for years naturally feel that the disease cannot be cured, and become discouraged.

Their failure to get relief is due to the fact that they have not used the right remedy. Catarrh is an affection of the head, throat and lungs, and cannot be cured by stomach dosing.

The only scientific and natural treatment for this disease is Hy-o-mei, which is breathed through a nasal pocket inhaler, so that its healing, medicated air reaches the most remote air cells, kills all catarrh germs, and restores the mucous membrane of the nose, throat and lungs to a healthy condition.

Hy-o-mei is the only cure for catarrh that has ever been sold with the understanding that it was to cure absolutely nothing unless it cured C. E. Anderson sells Hy-o-mei in this way and is always ready to refund the money if it does not relieve and cure catarrh.

The healing and antiseptic balsam of Hy-o-mei perform their purpose to perfection, and by using this remedy for a few times each day, you can cure yourself of any catarrhal troubles.

A complete Hy-o-mei outfit consisting of a bottle of Hy-o-mei and an inhaler costs but \$1.00.

Don't forget the concert Friday night at M. E. church.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A ROCK IN THE BALTIMORE

— BY ROBERT BARR —

The Daily Age's Great Serial Story—A Tale of Love, Travel and Wonderful Adventure

Continued from Yesterday

"Thank you, Lieutenant Drummond," rumbled Sir John in his deep voice, as if he were pronouncing sentence, and, my testimony completed, the committee rose.

"I was out in the street before Billy Richardson overtook me, and then he called himself to my attention by a resounding slap on the shoulder.

"Alan, my boy," he cried, "you have done yourself proud. Your fortune's made."

"As how? I asked, shaking him by the hand.

"Why, we've been for weeks holding an inquiry on this blessed gun, and the question is whether or not a lot more of them are to be made. You know what an opinionated beast Old Grouch is. Well, my boy, you have corroborated his opinion of the gun in every detail. It is such a brow beating, tyrannical brute that the rest of the committee would rather like to go against him if they dared, but you have put a spoke in their wheel. Why, Sir John never said "thank you" to a human being since he was born until twenty-seven minutes and fifteen seconds after 11 this morning, as you would put it; and at the time of writing this letter this surmise of Billy's appears to be justified, for the tape in the club just now announced that the committee has unanimously decided in favor of the gun, and adds that this is regarded as a triumph for the chairman, Admiral Sir John Pendergast, with various letters after his name.

"Dear Miss Amhurst, this letter, as I feared, has turned out intolerably long, and, like our first conversation, it is all about myself. But then, you see, you are the only one on the other side of the water to whom I have confided my selfish worries, and I believe you to be so kind hearted that I am sure you will not censure me for this once exceeding the limits of friendly correspondence. Having been deeply depressed during all the previous long days, the sudden reaction urges me to go out into Fall Mall, fling my cap in the air and whoop, which action is quite evidently a remnant of my former cowboy aspirations. Truth to tell, the Russian business means liberty and a new life for me."

give testimony, lasting about thirty minutes, when, with a little patience, he might have waited till the Consternation herself arrived or else have called for us to try the gun at Bar Harbor. I suppose, however, that after my unfortunate contretemps with Russia our government was afraid I'd clip a corner off the United States and that they'd have to pay for it. So perhaps, after all, it was greater economy to bring me across on the liner *Enthusiana*.

"By the way, I learned yesterday that the 'Consternation' has been ordered home, and so I expect to see Jack Lamont before many days are past. The ship will be paid off at Portsmouth, and then I suppose he and I will have our freedom for six months. I am rather looking forward to Jack's cooking me some weird but tasty Russian dishes when we reach his blacksmith's shop in St. Petersburg. If I get on in Russia, as I hope and expect, I shall spend the rest of my leave over in the States. I saw very little indeed of that great country and am extremely anxious to see more. When one is on duty aboard ship one can only take very short excursions ashore. I should like to visit Niagara. It seems ridiculous that one should have been all along the American coast from Canada to New York and never have got far enough inland to view the great falls.

"Russia is rather dilatory in her methods, but I surely should know within two or three weeks whether I am going to succeed or not. If not, then there is no use in waiting there. I shall try to persuade the prince to accompany me to America. During the weeks I am waiting in St. Petersburg I shall continually impress upon him the utter futility of a life which has not investigated the great electrical power plant at Niagara Falls. And then he is interested in the educational system of the United States. While we were going to the station early that morning he told me that the United States educational system must be the most wonderful in the world, because he found that even the most educated Russian knew more about electricity and the dynamo than the average American."

tion for girls, and all this rather astonished me, because, although my friend was most charming, she said nothing during my very short acquaintance with her to lead me to suspect that she had received a scientific training.

"Dear Miss Amhurst, I am looking every day for a letter from you, but none has yet been received by the admiralty, who when they get one will forward it to whatever part of the world I happen to be in."

CHAPTER VIII.

A SUMMER hotel that boasts a thousand acres of forest, more or less, which serve the purposes of a back yard, affords its guests, even if all its multitude of rooms are occupied, at least one spot for each visitor to regard as his or her favorite nook. So large an extent of woodland successfully defies landscape gardening. It insists on being left alone, and its very immensity raises a financial barrier against trimly kept gravel walks. There were plenty of landscape garden walks in the immediate vicinity of the hotel, and some of them ambitiously penetrated into the woods, relapsing from the civilization of beaten gravel into a primitive thicket trail, which, however, always led to some celebrated bit of picturesque—a waterfall, or a pulpit rock outstanding like a tower, or the fancied resemblance of a human face carved by nature from the cliff, or a viewpoint jutting out over the deep chasm of the valley, which usually supported a rustic summer house or pavilion where unknown names were carved on the woodwork—the last resort of the undistinguished to achieve immortality by means of a jackknife.

Dorothy discovered a little Eden of her own, to which no discernible covert way led, for it was not conspicuous enough to obtain mention in the little gratis guide which the hotel furnished, a pamphlet on coated paper filled with half tone engravings and half extravagant eulogies of what it proclaimed to be an earthly paradise, with the rates by the day or week given on the cover page. It was a beautiful spot, and Dorothy was very glad to find it.

A very limpid spring, high up and out of sight among the leaves, sent its waters tinkling down the face of the cliff, ever tilling a crystal clear lakelet at the foot, which yet was never full. Voluptuous and beautiful as was the moss surrounding this pond it was nevertheless too damp to form an acceptable couch for a human being unless that human being were brave enough to risk the rheumatic inconveniences which followed Rip Van Winkle's long sleep in these very regions, so Dorothy always, carried with her from the hotel a featherweight, spider's web hammock, which she deftly slung between two saplings, their light suppleness giving an almost pneumatic effect to this fairy net spread in a fairy glen, and here the young woman swayed luxuriously in the relaxing delights of an indolence still too new to have become commonplace or wearisome.

She always expected to read a great deal in the hammock, but often the book slipped unnoticed to the moss and she lay looking upward at the little disks of blue sky visible through the checkering maze of green leaves. One afternoon, deserted by the latest piece of fictional literature, marked in plain figures on the paper cover that protected the cloth binding one dollar and a half, but sold at the department store for \$1.08, Dorothy lay half hypnotized by the twinkling of the green leaves above her, when she heard a sweet voice singing a rollicking song of the civil war and so knew that Katherine was thus berating her approach.

"When Johnny comes marching home again, Hurrah! Hurrah! We'll give him a hearty welcome then, Hurrah! Hurrah! The men will cheer, the boys will shout, The ladies will all turn out, And we'll all feel gay When Johnny comes marching home."

Dorothy went still further back into the history of her country and gave a faint imitation of an Indian war whoop to let the oncomer know she was welcome, and presently Katherine burst impetuously through the dense undergrowth.

TUSCARORA WAS FLOODED

Parts of the first and second floors at the Tuscarora plant of the Meek Co. were deluged with water early Thursday morning as a result of some one's carelessness in leaving a pipe open.

A plumber was at work in the building on the second floor Wednesday, and removed a radiator without closing the pipes. When the steam was turned on Thursday morning, water was thrown over everything in that vicinity and leaked through to the floor below.

No damage was caused, but the floors were soaked

FIGURES ON WATER RATES

Statements made to The Age by Clerk Hutchinson of the B. P. S. show that it would be foolish to think of reducing the water rentals of Coshocton. In 1906 the expenditures exceeded the receipts by \$2,436.03, the greater portion of this being for the extension to the glass factory. It is impossible to reduce the running expenses and if the water rents do not pay the expense of extending mains etc., it would be necessary to go back to the old system of issuing bonds which would mean heavier taxation. The water rates in Coshocton are lower than in forty towns where private corporations own them (\$20.29) and in 25 towns where operated by the city (\$19.55). In Coshocton the rate is \$17.50 for complete usage for a house of 3 rooms.

SHE CUT THE TIE THAT BINDS

Lizzie Murphy swore out a warrant in Squire Wimmer's court Thursday charging Lizzie Hawkins with cutting her clothes line, valued at 50c, and allowing her clothes to fall to the ground and damaging them.

The parties each live on Oak Avenue in the eastern part of the city. Constable Graham went after the alleged knife user this afternoon and she is having her hearing before Squire Wimmer

BAD CUT WITH DULL KNIFE

Constable Graham met with an accident Thursday morning that will cause him considerable pain for several days. He was trying to cut a heavy string with a dull knife, when the knife blade slipped and the point entered the fleshy portion of his left hand. The blade had a very sharp point, and pushed through to the bone, and from the pain it is causing, the doctor who dressed the wound, thought the nerve had been cut.

COURT HOUSE

ANOTHER ASSESSOR Edward Schlegel, assessor of Crawford tp., reported Thursday. The total valuation is \$167,340, this being \$3,000 higher than last year. The new buildings were assessed at \$1,200.

Both Sides Claim Victory in Game Saturday

The members of both the Coshocton and Wizard baseball teams are expected to report for practice at the park this evening in preparation for the game Saturday. The rain Wednesday prevented any workout last night and the boys are all ready to turn out and work tonight.

The proceeds of the game are all to be used in repairing the grounds and the loyal fans should all turn out and lend their assistance. The ground at present is in very bad shape, and before any big games can be played this must be changed. Admission 25c ladies free.

Wizard's Line Up Captain Thompson of the Wizards announces the following line up for the game Saturday with the Coshocton team. Thompson, catch; Dive and Gehring, pitch; Carter, short stop; Haight, first base; Maple, second base; Fowlson, third base; Gross, Smith, Beck and Dangle, fielders

MINERS SEND FORTH DEF

The miners at Morgan Run mines have organized a baseball team and challenge the glass factory or the pottery teams to a game on the hill diamond any Saturday. It is likely that a game will be played soon with the pottery team and later with the glass workers.

Yuan Shi Kai has received a report from the Chinese commercial agent at Vladivostok, that more than four hundred of the opium dens are owned by Chinese and their number is increasing yearly. Exclusive Sellers of McDougall Kitchen Cabinets

You can't afford to be without a GOOD kitchen cabinet, if you figure your life as worth living. You can't afford to go on denying yourself recreation and playing the drudge in your kitchen, when you can do twice as much work with half the effort and in half the time.

You can afford a McDUGALL KITCHEN CABINET. It saves enough in supplies alone to PAY FOR ITSELF in one year. But you can't afford a POOR kitchen cabinet. You can't afford a kitchen cabinet that you will have to throw away, that will not last, that collects dust, grease, and vermin and proves a nuisance instead of a help. THE McDUGALL is built with a knowledge of what a kitchen cabinet should be, in durability and thorough convenience. If that's what you are looking for, you can't afford anything else. McDUGALL KITCHEN CABINETS are not high priced \$16.50 to \$28.00. We have one here to fit your needs and your purse, and it invites your critical inspection.

Odd Fellows to Drag River

[By Telegraph to The Age] Columbus, O., May 16.—The most extensive and systematic search for the body of a missing man ever made in Ohio will be undertaken early in June when not less than 1000 members of the Order of Odd Fellows, representing lodges in seven different cities, will commence on the same day to drag the Scioto river for the body of Charles B. Burr, missing ex-director of public service of this city. The search will extend from Columbus to Portsmouth, and will be in direct charge of Ivor Hughes, grand master of Ohio.

THE WORST KIND.

After Piles have existed for a long time and passed through different stages, the suffering is intense—pain, aching, throbbing, tumors form, filled with bursting with black blood.

Symptoms indicating other troubles may appear to a thoroughly Pile-sick person.

and this the Melodic System does admirable, the music is all of an exceptionally high class and the words set to it are in many cases from Robert Louis Stevenson or Longfellow or else an adaption of the folk lore tales.

Each new thing the pupils are to learn—the value of a dotted note perhaps, or a new minor—is illustrated with several exercises and then right after them comes the songs which enforce the thing just learned. The children take to the new method like the proverbial duck to the proverbial water.

In the lower grades the pupils sing quite a good deal from dictation—which seems marvelous to the listener—and in all the rooms they read with remarkable quickness and accuracy.

Mr. Ashley is arranging now for a "cycle" of songs which will be given early in June and to which all the people of Coshocton will be asked. The cycles will consist of choruses sung by children selected from a number of the different grades and will, of course, be an exhibition of unusual interest showing as it will the work which has been done during the fraction of the year in which the Melodic System has been in use.

A PAYING BUSINESS INVESTMENT.

THE PEOPLES INDEPENDENT COAL COMPANY offers the public an opportunity of sharing the profits earned by safely investing in their reliable coal mine.

This Company is incorporated with a capital stock of \$250,000, all common stock, free from all indebtedness. The mine is located at Fort Hill, Somerset County, Pa., direct on the main line of the Baltimore & Ohio R. R., thus affording unexcelled shipping facilities.

THE PEOPLE FIRST CHANCE TO OWN COAL LAND.

Before this, all coal mining interests have been controlled by bankers and capitalists. They issue stock up to a large amount, and retain at least 60 per cent. of said issue. Now, we offer you a chance to invest in a proved, paying coal property, the company controlling which is capitalized on an extremely low basis.

Par value of each share is \$10.00, full paid and non-assessable, but in order to quickly raise money for needed improvements, you can secure shares at \$5.00 each, provided your order is received at our office, on or before the last day of the current month at noon time. After that date, the price will positively be advanced to \$7.50 a share.

Write for further information, illustrations, and experts' reports.
